

DOUBLE MAILBOX 60-EAN-PRX-MIFARE READER

DOUBLE MAILBOX PROXIMITY READER FOR VISITORS AND EMPLOYEES

COD 13045000

DOUBLE MAILBOX 60-EAN-PRX-MIFARE READER

FEATURES

Mailbox for MIFARE proximity card with double reader is perfect for access control of employees and visitors using a single device.

It integrates a mailbox type reader, specially designed for installations with visitor management system; it allows recovery of expired cards, even with holder and clip and a second reader for employees, designed for

installation in swing gates, turnstiles, scanning posts, etc.

Its functioning is simple. The visitor inserts the card through the front opening (1), inside the device the card is read by a proximity reader (2). In case the visitor card needs to be recovered, the mailbox releases the back trapdoor activating the reel. Then the card falls through the back part of the mailbox (3). The turnstile, barrier, swing gate is not released until the mailbox detects the fall of the card using a photocell.

It includes a 4x16 character backlight display, showing the current time, date and company name in standby. The software can configure personalized messages for every employee.

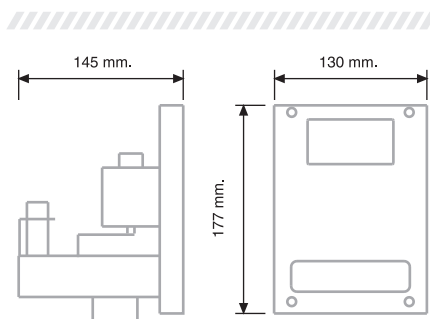

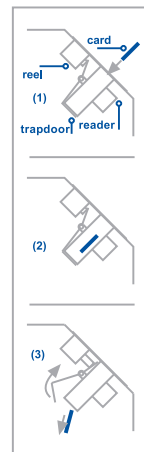

TECHNICAL SPECIFICATIONS

Dimensions:	120 x 150 x 130 mm.
Reading mode:	MIFARE proximity (read/write) (read range 3 cm).
Power supply:	24 VDC
Power consumption:	250 mA
Display:	Backlit LED 4x16 characters
